Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 01 February 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 102

Claims 28, 31-34, 39,40,57 and 59-61 are rejected under 35 U.S.C. 102(b) as being anticipated by Srichayaporn for the reasons set forth in the previous office action and below in response to applicant's remarks. Breeding and Shen have been removed from the grounds for rejection in order to condense the issues.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 29,30,35-38,41,43-56,58 and 62 are rejected under 35 U.S.C. 103(a) as being unpatentable over Srichayaporn in view of Franklin 5,597,162 and matters well known to card games as set forth in the previous office action and below in response to applicant's remarks.

Claim 42 is rejected under 35 U.S.C. 103(a) as being unpatentable over Srichayaporn in view of Franklin 5,597,162 and matters well known to card games and further in view of Banyai as set forth in the previous office action and below in response to applicant's remarks.

Conclusion

Applicant's arguments filed 2/1/05 have been fully considered but they are not persuasive.

Applicant's remarks on pg. 12-14 with respect to Srichayaporn take issue with the fact that he shows more than one wager possible. In what has been dubbed as a "dual betting" method (middle of pg. 13) in Srichayaporn he contrasts to his single wager (middle of pg. 14). This limitation explicitly recited of "having each player make a single wager prior to viewing the face value of their respective cards" is still considered met by the method of Srichayaporn by the act of placing more than one wager. This interpretation of the claim is based on the open language "comprising" in which it is written. As such the grounds for rejection remains and this limitation fails to distinguish over the applied art.

Alternatively, clearly applicant can make limitations reciting for example "one and only one" wager or the like. However, in view of the prior art, traditional pai gow, is conventionally played with only a single wager. Breeding 5,248,142 shows a single wager 24 on a high/low game, Franklin 5,584,486 shows a single wager 21S on a high/low game and Lo 5,863,042 shows single wagers 404. As such, the examiner cannot offer any suggestions since applicant's invention is considered more than fairly taught by the prior art.

With respect to the limitations in claim 28 of two "half-hands" argued in the last paragraph of pg. 14, Srichayaporn shows the "initial hand may comprise four tiles, the high hand may comprise two tiles, and the low hand may comprise two tiles" (col. 3, ln. 25. This explicitly shows the limitations that the number of cards be in the range "from 3 to 7" or 4 and two cards in each hand shows where "either half-hand does not exceed

the total number of cards in the other half-hand by more than one card". As such, this limitation fails to distinguish over that applied art.

Once again considering this limitation in view of the art as a whole with respect to number of cards in each hand, Lo teaches that there can be 2,2 or 3,2, Shen 4,659,087 teaches 2,2. Clearly, in view of the prior art, the number of cards has not been shown to be critical to applicant's claimed invention.

Shen and Breeding have been removed from the statement of the grounds from rejection to make it more clear as set forth above. As such, no further reply with respect to these references is included.

With respect to the rejection under 103, claim 29 explicitly recites that "said players may opt to discard...and draw a replacement card upon the payment of a fee". Most broadly interpreted this limitation is optional. Language that suggests or makes optional but does not require steps to be performed or does not limit a claim to a particular structure does not limit the scope of a claim or claim limitation.

It is not a required step since a player "may opt" not to discard and draw a replacement. For the reasons above alone, this language of claim 29 does not distinguish over Srichayaporn.

More specifically with respect to Malek, the teachings of Franklin'162 have been substituted for him as set forth in the grounds for rejection above. Franklin clearly teaches allowing a fee or a wager for a replacement card in a wagering game in order to allow a player the opportunity to better his hand. Certainly, applicant is not the inventor or allowing to buy additional cards or replace cards for a fee in a wagering game.
